

CORN TRIAL

Picture Butte, AB (2016)

Control

Pengergetic Treated

Treatment (Control Portion): Grower Standard Practice (GSP)

Treatment (Pengergetic Portion): GSP + 100 grams/ac pengergetic k (with burnoff) + 100 grams/ac pengergetic p (in crop folliar with herbicide) + 100 grams/ac pengergetic p applied through pivot

Results: Pengergetic treated yielded 2.1 tons more. Awaiting label report on feed value. Grower pleased.

Note: Grower observed better weed control on Pengergetic treated side.
