

# DURUM WHEAT

## McCord, Saskatchewan - July 2016

**Control:** Growers Standard Practice (GSP)

**Penergetic Treated:** GSP + Penergetic k (soil activator) 200 grams/acre with burnoff + Penergetic p (foliar) 100 grams/acre in crop with herbicide

**OBSERVATIONS:** The root system of the Penergetic treated plants were so intertwined it was not possible to wash the soil off. Evidence of more root mass and more fine root hairs.
