* Washington State Average Yield (2015) = 1,849 lbs./acre

FINANCIAL IMPLICATIONS

VARIETY	YIELD DIFFERENCE / AC. [Compared to WA 2015 Avg]	PRICE (\$ / lb.)	EXTRA REVENUE
Centennial	301 lbs.	\$4.71	\$1,417.71 / ac.
Chinook	251 lbs.	\$4.71	\$1,182.21 / ac.

[Note: All \$ figures shown are in U.S. dollars.]

"We started using Penergetic K & P in 2015 on our hops and are very impressed with the results. Friends and farmers noticed a difference in our fields and asked what we were doing different. Penergetic Products was the change.

We will continue to use Penergetic technology in 2016. The results in the 1st year of use have been awesome! With the added value of the product to the soil and the plant, the probability of reducing other fertilizers is expected."
